EDUCATION	**Dickinson College**, Carlisle, PA

Computer Science and Math

Expected June, 2021   Overall GPA: 3.91/4.00 —— CS GPA: 3.92/4.00

EXPERIENCE

Web Developer

Academic Tech Department, Dickinson College   **Sep 18 - Jun 19**

- Remodeled Mixxer, a language exchange website with over 300,000 users, implementing React JS to appeal to a wider audience
- Engineered a search page that increased the platform's retention rate by 10%
- Designed and developed an Android application for Mixxer
- Gained a deeper understanding of LAMP stack, Drupal, JSON, HTML and CSS, and proficiency in JavaScript.
- **Link:** https://www.language-exchanges.org

IT Support Technician

Johns Hopkins CTY — Carlisle, PA   **Jun 19 - Aug 19**

- Provided technical support in different operating, cloud and networking systems for over 600 staff members and students
- Ensured uninterrupted operation of the program regarding technology as a part of the administration team

Library Supervisor

Waidner Spahr Library, Dickinson College   **Aug 19 - Present**

- Oversee student staff employed at service desks.
- Provide training and mentoring, delegate tasks to ensure efficient and effective services, and assess staff performance.
- Participate in hiring and interview process, properly control and handle confidential information.
- Utilize specialized library software to process library collection and guide patrons with using library hardware and software in building

PERSONAL PROJECTS

Habit Free: Block Distractive Apps

Android App   **Jul - Sep 2018**

A fully functional Android application built on Android Studio that helps the users break their smart-phone dependencies by allowing them to block applications of their choice for a set amount of time.

- Obtained solid proficiency in Java, XML, Android SDK, and Android Studio(IDE)
- Deepened my understanding of Model-View-Controller design, Object-Oriented programming, object life-cycles, memory management, and an array of libraries used in Android development
